MORE: <https://www.united-vars.com/en/partners/pearl-consulting>

Pearl Consulting offers template-based solutions from SAP and Hybris - the best software for retailers, wholesalers and pharmaceutical businesses. This means that the customers can have a new business system up and running quickly and safely. The company's integrated ERP and eCommerce solutions offer a fast track to data-driven customer engagement platforms in an omni-channel environment. Pearl Consulting was established in 2006 with a mission to provide customers better IT solutions to support their business processes. Established solutions were often too expensive and complex for them. Pearl Consulting wanted to bring to the market something that did not exist: a re-use of IT templates, processes and expertise. Then it would be able to supply higher-quality solutions, quickly, to new customers.
