MORE: <https://www.united-vars.com/en/partners/snp-group>

SNP Group has around 1,500 employees worldwide and is headquartered in Heidelberg, Germany. SNP is a worldleading provider of software for managing complex digital transformation processes. Instead of traditional IT consulting in the ERP environment, SNP offers an automated approach using specially developed software: The Data Transformation Platform CrystalBridge® and the SNP BLUEFIELD™ approach allow companies to restructure and modernize their IT landscapes much more quickly and securely as well as migrate to new systems or cloud environments more securely. This gives customers clear qualitative advantages while at the same time reducing their time and costs.
